

# New PrintBoss Enterprise

As a result of the growing use of electronic document management and web based accounting software, Wellspring Software has introduced PrintBoss Enterprise.

Be prepared to work in the new computer environments including enhanced emailing of accounting documents.

## The future of PrintBoss

### Print Checks

- Use only one check stock for all checks. Print security verified signatures.
- Use standard keystrokes from your accounting package.
- Print your logo on any check.
- Specify the print order of check copies.
- Generate Positive Pay files from a check run.

### Print Forms

- Never order accounting forms again.
- Print copies on plain paper.
- Use standard keystrokes from your accounting package.
- Specify the print order of copies.
- Print your logo on any form.
- Email documents to customers.

## Upgrade Today!

For 13 years Wellspring Software, Inc. has provided the easiest and most effective way to produce professional, laser sharp accounting documents on a laser printer. Our products have provided a printing solution that resolves virtually all of the limitations traditionally associated with creating, printing, distributing and filing accounting documents. We have addressed all aspects of the printing process: Multiple bank accounts; electronic signatures; logos; multiple copies; information specific to a copy; and much more. We have continued to develop the product by staying abreast of the latest technologies in check writing and document security. Wellspring products make accounting documents better looking and easier to produce.

## PrintBoss Enterprise
